

Infinity Sun New Client Form

You have agreed to participate in a series of **Infinity Sun** sessions to achieve a tan on your skin. To help you best achieve your desired results, please read the following material carefully.

1. **Infinity Sun** will not prevent your skin from burning in the natural sun or in a tanning bed, like a base tan will. Please take the proper precautions when tanning with UV light exposure.
2. For best results, we recommend 1-2 sessions within 5-10 days to develop your desired color. Maintaining your color is possible with subsequent visits of every 6 – 10 days. Healthy, hydrated skin will hold results longer and achieve color faster. Ask a tanning consultant for a recommendation of the proper regimen.
3. For best results, wait 12 hours after using the **Infinity Sun** before showering or engaging in any activity that will cause you to perspire. This will allow your **Infinity Sun** to fully develop and will ensure the longest results.
4. The **Infinity Sun** is designed to provide as even a tan as possible. However, the porosity of the tanner's skin varies and may affect result and longevity. It is possible you will find some areas of your tan lighter than others. In most cases, these differences are minor and disappear after several sessions.
5. More than one **Infinity Sun** session per 12 hours is not recommended.
6. All the components of the **Infinity Sun** tanning solution have been used in cosmetics and food products for decades and have proven to be safe for the skin. If you have ever had any adverse effects utilizing self-tanning products or moisturizers you will probably experience similar effects with **Infinity Sun**.
7. All the active ingredients in the **Infinity Sun Solution** are FDA approved for use as a self-tanning skin agent. However, the FDA has not specifically tested the ingredients for use in a spray on mist application. Thus the spray-on tanning process with this solution is not FDA approved. Testing of the ingredients for this application is currently in progress, and results to-date indicates that there are no adverse effects due to inhalation or contact with human mucus membranes, such as eyes or inside the nose or mouth or any part of the body covered by mucus membranes. If a user chooses, he or she can request protective covering devices from the **Infinity Sun** operator.
8. Use of personal garments should be of the disposable kind as the DHA in **Infinity Sun** solution may permanently stain them. After dressing, the initial bronzers may transfer to your clothing if you pursue strenuous physical activity causing perspiration. Since the bronzers are water soluble, they will wash out if cleaned within the first couple of days.
9. We recommend that you close your eyes and mouth while your face is being sprayed. We make this recommendation because most individuals would prefer not to breathe in the mist even though there is nothing in it that would cause any harm if you did breathe it.
10. Many customers wear disposable shower caps (provided by the salon) to keep the solution from getting in their hair. Others tan without covering their hair. The solution can't penetrate hair follicles and there have never been any cases where the tanning solution has changed anyone's hair color.
11. If you have any history of asthma or respiratory condition that could be aggravated by the use of **Infinity Sun**, please consult a physician before using it and be sure to apprise us of any past allergic reactions to DHA products.
12. Some of the ingredients used in our solution contain a sugar base. Use of sunless tanning cause your blood sugar levels to rise. Please consult with a physician before using **Infinity Sun** if you have a diabetic condition.
13. I, the undersigned, understand and will comply with all instructions for proper treatment with **Infinity Sun**. I am using these services at my own risk. I hereby authorize and direct employees or agents of the salon to perform such tanning procedures as may be deemed necessary or advisable, and have provided them with the above information required.
